

# Diego Perez Perez

## Front-end Web Developer

### About Me

Highly motivated and dedicated software developer with a passion for problem solving and continuous learning. Seeking a position as a Frontend Developer to utilize my skills and contribute to the creation of user-friendly and visually appealing websites and applications.

### Work Experience

#### Junior FullStack Web Developer.

**Keep Vending USA (KVU)**, Startup dedicated to the management, maintenance and status tracking of vending machines through the use of digital tools.  
**January 2024 - Present.**

The project consists of an online dashboard that manages the status and metrics of the machines. Originally developed in Angular & Django, I'm in charge of migrating the whole app to Next.js, React/TypeScript & ElysiaJS, with a modern UI using TailwindCSS.

**Tech Stack:** Next.js, React, TypeScript, TailwindCSS, ElysiaJS, Git, AWS.

**Developed skills:** Teamwork, team communication, SCRUM/agile methodologies, cloud development, unit testing, CD/CI, best practices.

#### Junior Software Developer.

**Soluciones Electrónicas SIMTRO**, Mexican company dedicated to the development of virtual shooting simulators for the training of security forces at federal, state and municipal levels.  
**June 2023 - August 2023.**

- Participation in the visual development of a software that works as a shooting simulator, used by the Mexican Ministry of National Defense (SEDENA).
- Assistance in the integration of new visual functionalities to the simulator, increasing client performance by 10%.
- Resolution of small bugs/errors in the view part of the application.

**Tech Stack:** C#.

**Developed skills:** Team work, Team communication, Integration to a team.
